Rockfon Canva® Wall panel

Sounds Beautiful

Rockfon Canva® Wall panel

- Rockfon Canva Wall panel is a versatile solution for improving acoustics in a variety of environments.
- Size and print can be customised to suit the user's mood, room purpose, or brand preference as a single piece element or with customized puzzle combinations and oversize dimensions allowing for entire spaces to be decorated with flawless acoustic design.
- Detachable, washable and replaceable canvas.
- Choose from our 34 inspirational Colours of Wellbeing range or design your own graphic layout. Mix and match with 10 different frame colours to create a unique statement for your space.
- Crafted with sustainability in mind, Rockfon Canva Wall panel uses 75% recycled aluminium for the frame and 100% recycled polyester for the textile canvas, ensuring a lower-emission solution without compromising on quality, performance or aesthetics.
- Fast and Easy installation. Panels arrive either fully assembled for single panels and puzzle options or as an easy assembly option for oversize possibilities.
- High performing product with a long performance life.
- Designed by Akuart

Product Description

- Absorber: 35 mm stone wool absorber
- Frame: 50 mm powder coated matt aluminium frame
- Surface: printed textile

Application Areas

- Education
- Healthcare
- Leisure
- Office
- Retail

Module size (Width x Height x Depth) (mm)	Weight (kg/unit)
900 x 1800 x 50	9.5
1200 x 1800 x 50	12.0
1200 x 2100 x 50	14.0
1200 x 2400 x 50	15.5
1200 x 900 x 50	7.0
900 x 600 x 50	4.0

Frame depth is always 50 mm. Possibility to customize panel sizes on demand.
Minimum size (WxH/HxW) = 150-500 x 500 mm
Maximum size (WxH/HxW) = 13000 x 3000 mm

A fully assembled Rockfon Canva Wall panel has a +/- tolerance of 1 mm in width and height.
For Rockfon Canva Wall panel - oversize panel, which is delivered as components, the tolerance is 1.5 mm for every 2.4 m in width and height.

Single frame

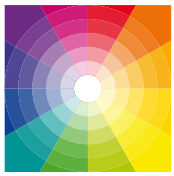
Custom graphic options



Contact your local Rockfon partner to get your choice of image, artwork, graphic design or other visual layout on the canvas surface in high resolution quality print.

All standard colours are printed on the textile with a texture weave pattern.
The Canva surface colours are close textile colour matches to the Rockfon Color-all® products. Colours may vary slightly between different production batches. Reproduction of colours may vary between print and reality. Please note that black frames combined with light coloured canvas can create a shadow effect close to the Canva. Surface textile in 'Mercury' colour does not have a metallic appearance.

Wall panel: The Rockfon Canva textile has a "visual direction". This means that the colours might differ depending on whether the element is hung in vertical or horizontal orientation.
