

DATASHEET

Rockfon® Light Frame

Sounds Beautiful

Rockfon® Light Frame

- An aesthetic design solution for standard light fixtures and ventilation services
- Smooth transition between services integration and ceiling tiles
- Can be used with a wide variety of modular lights
- Light Frames fit various tile edges X, D, Z, DAEX
- Compatible with all Rockfon Chicago Metallic T24 systems
- Available in various module sizes, in both white and matt white colours

Product Description

- Made for our elegant Rockfon X, D, Z and D AEX-edge ceiling tiles, the easy to mount Rockfon Light Frame snugly fits into the grid, providing an aesthetic and practical finish to the installation of any concealed edge ceiling.
- It allows for the easy installation of both a light frame and other relevant service integrations without compromising the visual finish of the room. It leaves no gaps between the suspension system and the Rockfon tiles, keeping your concealed ceiling grid smooth and flush with the acoustic ceiling tiles.

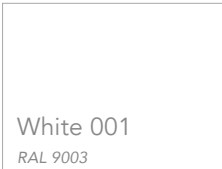

Application Areas

- Office
- Leisure
- Retail
- Education
