Rockfon Design Product Guide

Sounds Beautiful

Rockfon® Lamella

- Patented modular platform provides over 650,000 different design possibilities in just one system
- Complimentary wood veneers can be combined to create attractive aesthetical expressions
- Contrasting lamella widths and profile heights let you experiment with diverse relief patterns and interspacing ideas
- Reduction of wall-based reverberation reduces occupant stress levels, improving concentration & performance
- Use of natural materials & colours reconnects building occupants with the outside world

Rockfon® Senses

- Rockfon Senses acoustic wall panels are available in five natural surfaces for a breath of fresh air and a sense of well-being in your interior
- The visible fleece made of organic materials: fragrant flowers, grasses and leaves of alpine meadows. And finished by hand for the perfect look
- Rockfon Senses was created in collaboration with Organoid
- Optimal acoustics thanks to the stonewool panel behind the visible fleece.

Rockfon Eclipse® Colour

- Innovative and aesthetically pleasing frameless acoustic island comes in a smooth coloured, matt surface
- Rockfon Eclipse Colour is available in two formats (circle and square) and 11 exclusive colours from the Rockfon Color-All range to inspire and enhance your interior design scheme
- Subtle yet playful colours made to mix and match either within the same room or in different areas of a building
- Quick and easy to install, Rockfon Eclipse Colour can be fixed directly to the soffit or where a traditional suspended ceiling cannot be installed
- It can also be used as a frameless wall panel, fixed directly onto the wall or stepped from the wall with a 65mm gap
- Perfect for thermal mass installations with rear surface providing excellent heat and light reflection

Rockfon Mono[®] Acoustic

- Rockfon Mono Acoustic is a seamless acoustic ceiling delivering outstanding acoustic comfort and fire protection
- Suitable for high end projects
- It can be curved or used to create geometric shapes on ceilings and walls, and can be used to create bespoke islands
- The system comprises frames, 40mm stone wool panels, accessories and a render applied to the assembled panels. The render is available in white, 33 standard colours or customised colours
- It has to be installed by a certified Rockfon Acoustic installer
- Speak to your Key Account Manager for further information
