

Natural Benefits of Stone Wool for Acoustic Ceilings and Walls

Earn double CPD points attending our informative and enjoyable presentation held at your workplace

Rockfon acoustic stone wool and metal solutions for ceilings and walls create beautiful, healthy spaces which protect people from noise and the spread of fire while making a valuable contribution towards a sustainable future.

Compliance with building regulations and case study examples illustrate how stone wool acoustic ceilings have enhanced many interiors, across education, healthcare, retail, leisure and office sectors.

Main topics

- Best sound absorption in the speech frequency range
- Reaction to fire – safest class A1
- Humidity resistance up to 100% RH – dimensional stability
- Healthy indoor climate – does not harbour MRSA
- Fully upcyclable at UK factory
